From the Chairman's Desk

Frontline Public School believes in giving the best education in the most congenial and healthy environment.In keeping with the trends of the 21st century we have adopted technology aided learning by installing Smart Classes. This enables the teaching learning process in an interactive and three dimensional capacities. Our teaching staff is continuously upgrading their skills by attending various workshops. Teachers are recruited under strict scrutiny giving close attention to quality. Qualified and professional counselors are available at every stage for the guidance of the students and parents. A close circuit television surveillance has been installed by the school to monitor students as well as teacher's activity. To ensure un-interrupted power supply noiseless generators have been installed , to successfully service all the new facilities added in the school.. All pedagogical and infrastructural changes were possible due to the continuous efforts of the members of the School Managing Committee, the faculty members, staff and the administrative team at the Scottish Central School..With the combined efforts and support from all staff members, we are confident of making Frontline Public School the most outstanding school

Mr. Bijay Kumar
Chairman

From the Principal's Desk

We are thankful to you that you have shown a great faith in us as you handover your little kids to us. They are like potter's clay and we are here to mould them in true citizens of the country. In this concern, we want to assure you that no stone will remain unturned.We believe in the true development of the children and in my view, it is possible with your co-operation & support."Education" in modern parlance implies a world of new connotations, concepts and definitions. Each parent desires to see his child 'educated' in the best possible manner. Education has always been the transmission of civilization. Children today need more guidance, opportunities, counseling and sympathy in contrast to mere classroom instruction. It has been so rightly said, "You can lead a man up to the university but you cannot make him

Mr. Manoj Kumar Mishra
Princepal

INTRODUCTION

Frontline Public School, Narhat, Nawada was established in the year 2001. This school is run by a group of highly qualified professional, who are found of spreading education in the way of child's moral, mental, physical and social development. This school embodies some of the good features of school with emphasis of Indian culture and values without raising the cost of education.

AIMS

The school aims at giving a qualitatively high standard of education which would develop the student's innate potential of the fullest. The school is a co-educational English Medium School. It is managed by Laddulal Singh Educational and Welfare Society registered body under the Indian Trust Registered Act with eminent educationists and Philanthropists.

SCHOOL PHILOSOPHY

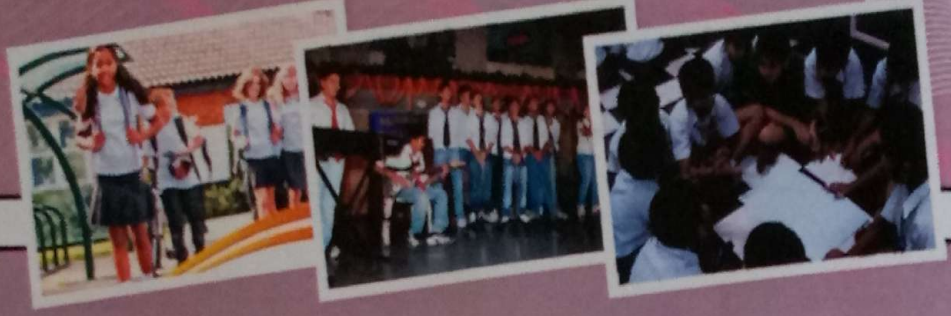
We believe in the dignity and worth of each student and recognize and importance of his/ her responsibilities to his/her fellow men in the world community. We believe that all youth should have equal opportunities for education, consistent with their individual capabilities and with their personal and social needs. We believe that change is a consistent fact in life. Therefore education should encourage in the student that development of personal values and thinking process which will facilitate their intelligent adaptability to the changing society. Education should foster independent thinking, expectation and experimentation as a life long process. It is our best endeavor to develop in each student the following:-

1. A mastery of the skills of communication and learning.
2. Good health and Physical fitness enabling the student to live and energetic whole some and productive life.
3. The ability to think clearly, logically and independently
4. Understanding and appreciation Cultural, Scientific, Economic and Political ideas and practices. Appreciation of ethical and cultural values.

SCHOOL BUILDING

The school has its own building. The school has well equipped modern labs for Chemistry, Physics, Biology, Mathematics and Computer Science. It also has a well stocked library having more than 1^600 books. The school subscribes a large number of reputed journals. There is separate rooms of Art, Craft and Music, and Is equipped with smart classes and H.D. Projector full filling all the eminent needs of modern and scientific education .

Scanned by CamScanner



1. The achievement of higher academic standard.

2.The implementation of a progressive curriculum in order to develop the value of character building and the integrated personality of the child.

3.To create self - awareness by providing the students the knowledge of assessing one's own abilities and thus helping to create the sense of self confidence..

4.To create conditions for understanding the greater values of equality and fraternity among the children in day to day life.

5. To promote human value as the foremost concept.

6. To develop the latest scientific knowledge through computer teaching by the practical handling of computer. They are also trained for the use of Internet so that since their childhood they could increase eagerness to know the scientific changes of the world.

7. All round development of the child is our prime motive and school strives for it.

8. We make effort to motivate the students properly so that they are able to develop love for work and assignment which leads to greater sense of learning and understanding.

9. The school curriculum emphasis is on the development of skills in the child and thus making them more useful in individual & social life.

10. The scientific inquisitiveness in the child is satisfied through the wider use of models, instrument and computer.

LOCATION AND SURROUNDINGS:

We at Frontline Public School believe in what Sri Aurobindo has said "The child's education ought to be an out bringing of all that is the best, most powerful, intimate and living in his nature. The module into which the man's action and development ought to run his innovate quality and power. He must acquire new things but will acquire them best, most wholly on the basis of his own development types and inborn force".

Amidst of calm and quiet peaceful locality in Nawada the school provides the most healthy atmosphere for the young learners. Away from the din and bustle of crowd. It is quite free from noise pollution. Fresh air free from the dirt and that keeps the children always active, smart and healthy.

The school building is impressive with a large campus comprising of open space for prayer and assembly, a computer centre, Science Laboratories, equipped library playground and children park etc.

ACADEMIC CURRICULUM :

At Frontline School Great emphasis is given to language teaching particularly English which is also the medium of instruction.

The students are admitted from class I to Class VIII. Fully trained and experienced teachers guide the students and special care being given to the development of child's personality.
